

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of Speciality Advisory Committee in Anaesthesia for review of MS synopses to be held on **Wednesday, 2nd February, 2022** at **10:30 a.m.** in University of Health Sciences, Lahore.

AGENDA

Sr.No	Name of Candidate / Specialty	Supervisor	Title
1.	Dr. Mehwish Mushtaq	Prof. Naila Asad Ex-Professor of Anaesthesia Services Institute of Medical Sciences/ Services Hospital Lahore	Comparison of intrathecal buprenorphine and dexmedetomidine as adjuvant to bupivacaine in C-section
2.	Dr. Aisha Fareed		Comparison between dexamethasone and tramadol used as an adjunct with bupivacaine in spinal anesthesia for lower limb orthopedic surgeries
3.	Dr. Shamim Batool	Prof. Mazhar Iqbal Professor of Anaesthesia Punjab Institute of Cardiology Lahore	To compare the hemodynamic effects of IV morphine and IV midazolam in sedative doses in patients undergoing CABG surgery
4.	Dr. Hifza Idrees	Dr. Syed Imran Ul Hassan Associate Professor of Anaesthesia Punjab Institute of Cardiology Lahore	Comparative analysis of effect of on-pump versus off-pump technique used in cardiac revascularization surgery on renal functions
5.	Dr. Sameer Fatima	Dr. Saedah Asaf Associate Professor of Anaesthesia The Children's Hospital and the Institute of Child Health Lahore	Comparison of postoperative FACES pain score after induction with propofol and ketamine versus propofol and local infiltration of 2% lidocaine in pediatric patients undergoing bone marrow biopsy
6.	Dr. Asma Noreen	Prof. Jodat Saleem Professor of Anaesthesia Postgraduate Medical Institute/Lahore General Hospital Lahore	Comparison of Alkalized lidocaine filled endotracheal tube cuff and air-filled endotracheal tube cuff in prevention of postoperative cough and sore throat after general anesthesia
7.	Dr. Iqra Maqsood		Comparison of incidence of hypotension in patients undergoing elective caesarean section under subarachnoid block with 2 minutes sitting vs immediately lying down after the block
8.	Dr. Bismah Jabeen	Dr. Mohsin Riaz Askari Associate Professor of Anaesthesia Faisalabad Medical University/Allied Hospital, Faisalabad	Assessment of intraperitoneal bupivacaine for postoperative analgesia in patients undergoing laparoscopic cholecystectomy: a randomized control study
9.	Dr. Momina Ishtiaq		The Effect of rectus Sheath block as a supplement of general anesthesia on postoperative analgesia using randomize study in adult patient undergoing umbilical hernia repairs under age 20 to 55
10.	Dr Tariq Bashir	Dr. Aushtar Abbas Naqvi Assistant Professor of Anaesthesia D.G Khan Medical College/THQ Teaching Hospital, D.G. Khan	Comparison of intravenous dexmedetomidine versus intravenous lignocaine for attenuation of hemodynamic stress response to

			laryngoscopy and endotracheal intubation
11.	Dr. Abdul Wahab Jamal	Dr. Aatir Fayyaz Associate Professor of Anaesthesia Nishtar Medical University/ Nishtar Hospital, Multan	Comparing the effect of magnesium sulphate and dexmedetomidine on hemodynamic variables after laryngoscopy on extubation in patients undergoing elective subtotal thyroidectomy
12.	Dr. Zoia Khan		Comparing the time required for first postoperative analgesic dose after caudal analgesia alone versus caudal analgesia plus intravenous dexamethasone in children undergoing open surgical removal of vesical calculi
13.	Dr. Adeela Rahman		Comparing the effect of intraoperative dextrose 10 percent & ringer lactate as maintenance fluid on the incidence of postoperative nausea and vomiting after laparoscopic cholecystectomy
14.	Dr. Sabeela Sheereen	Dr. Muhammad Usman Mohsin Assistant Professor of Anaesthesia Nishtar Medical University/ Nishtar Hospital, Multan	Comparison between efficacy of bupivacaine alone vs bupivacaine with tramadol on duration of analgesia post operatively in supraclavicular brachial plexus block for upper limb surgery
15.	EX-Agenda on Table		
16.	Dr. Ayesha Ashraf	Dr. Syed Imran Ul Hassan Associate Professor of Anaesthesia Punjab Institute of Cardiology Lahore	Dexmedetomidine versus midazolam as a procedural sedation agent in coronary artery bypass surgery

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of Speciality Advisory Committee in Anaesthesia for review of MS synopses to be held on **Monday, 4th April, 2022** at **11:30 a.m.** in University of Health Sciences, Lahore.

AGENDA

Sr.No	Name of Candidate / Specialty	Supervisor	Title
1.	Dr. Tariq Bashir (Revised)	Dr. Aushtar Abbas Naqvi Assistant Professor of Anaesthesia D.G Khan Medical College/DHQ Teaching Hospital, D.G. Khan	Comparison of intravenous fentanyl with dexmedetomidine for attenuation of hemodynamic stress response to laryngoscopy and endotracheal intubation in hypertensive patients undergoing elective surgery
2.	Dr. Hafiz Haroon Yaqoob Sindhu (Revised)	Prof. Naila Asad Ex-Professor of Anaesthesia Services Institute of Medical Sciences/ Services Hospital Lahore	The effect of dexmedetomidine sedation on postoperative delirium in elderly patients under spinal anesthesia in orthopaedic surgery
3.	Dr. Adnan Shakoor (Revised)	Dr. Aamir Furqan Assistant Professor of Anaesthesia The Children's Hospital and The Institute of Child Health, Multan	Comparison of hemodynamic effects of cis-atracurium and atracurium in patients with low ejection fraction undergoing coronary artery bypass grafting surgery (CABG)
4.	Dr. Mohib Ali (Revised)	Prof. Ambreen Khan Professor of Anaesthesia Quaid-e-Azam Medical College/ Bahawal Victoria Hospital, Bahawalpur	Comparison of mean duration of analgesia in patients undergoing hand and forearm surgeries treated with lignocaine along with ketamine vs lignocaine along with dexmedetomidine in intravenous regional anesthesia
5.	Dr. Soma Butt	Prof. Jodat Saleem Professor of Anaesthesia Postgraduate Medical Institute/Lahore General Hospital Lahore	Comparison of hypotension in two different phenylephrine infusion regimes for maintaining maternal BP during C section under spinal anesthesia
6.	Dr. Zara Habib		The effect of multimodal analgesia on minimum alveolar concentration of isoflurane for skin incision at constant bispectral index in patients undergoing lumbar laminectomy
7.	Dr. Saba Arif	Prof. Muhammad Amer Head, Department of Anaesthesia Nishtar Medical University/ Nishtar Hospital, Multan	To compare the effect of crystalloid preloading and crystalloid plus phenylephrine infusion preloading on blood pressure of women undergoing elective lower segment caesarean section (LSCS) after spinal anesthesia

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Anaesthesia** for review of MS synopses to be held on **Friday, 4th November 2022**, at **10:00 a.m.**, in University of Health Sciences, Lahore.

Sr. No.	Name of Candidate / Specialty	Supervisor	Title
1.	Dr. Uswa Anwaar	Prof. Jodat Saleem Head, Department of Anesthesia Postgraduate Medical Institute, Lahore	Comparison of sensory block in term of mean duration of effect between paravertebral block and unilateral spinal anesthesia in the patients undergoing inguinal hernia repair. A randomized controlled trial
2.	Dr. Tayyaba Kausar		Comparative study of combined-epidural butorphanol and combined-epidural tramadol for post-operative analgesia in patients undergoing total hip replacement surgery at Tertiary care hospital
3.	Dr. Quratul Ain		Correlation between inferior vena cava diameter and it's collapsibility index with central venous pressure in patients with septic shock
4.	Dr. Wajeeha Fayyaz	Prof. Ashraf Zia Head Department of Anaesthesia Allama Iqbal Medical College, Lahore	Comparison of prophylactic cardioprotective role of intravenous glycopyrrolate versus placebo in laparoscopic surgeries
5.	Dr. Syed Ali Raza (Revised)	Dr. Qudsia Anjum Qureshi Assistant Professor of Anaesthesia Rawalpindi Institute of Cardiology, Rawalpindi	Comparison of hemodynamic effects of propofol, ketamine and ketofol for anesthesia induction in CABG patients with moderate ejection fraction
6.	Dr. Anam Hameed	Dr. Faiqa Qurban Head Department of Anaesthesia Gujranwala Medical College, Gujranwala	Comparison of stress response using direct vs video laryngoscopy requiring tracheal intubation under general anaesthesia in patients presenting at DHQ hospital
7.	Dr. Reesha Khalid Khan	Dr. Muhammad Omar Ajmal Assistant Professor of Anaesthesia Sahiwal Medical College, Sahiwal	Comparison of phenylephrine boluses vs infusion regime in treating spinal induced hypotension in patients undergoing cesarean section
8.	Dr. Shaista Parveen (Revised)	Dr. Syed Aushtar Abbas Naqvi Assistant Professor of Anaesthesia D.G Khan Medical College, Dera Ghazi Khan	Comparison of analgesic efficacy of caudal dexmedetomidine versus caudal tramadol as an adjuvant with bupivacaine in pediatric infraumbilical surgery
9.	Dr. Obaid ur Rehman	Dr. Sairah Sadaf Associate Professor of Anaesthesia Sheikh Zayed Medical College, Rahim Yar Khan	Comparing the efficacy of intravenous dexmedetomidine tramadol and ketamine for control of post spinal shivering in obstetric patients undergoing lower segment c-section

10.	Dr. Nazish Syed		Comparison of dexmedetomidine and midazolam for sedation Inpatient undergoing weaning in intensive care unit
11.	Dr. Madiha Ashraf	Prof. Ambreen Khan Professor of Anaesthesia Quaid-e-Azam Medical College, Bahawalpur	Comparison of efficacy of dexmedetomidine and midazolam on emergence agitation in patients undergoing nasal surgeries
12.	Dr. Ayesha Kiran		Comparative study on mean duration of post operative analgesia after mastectomy with pectoral nerve block 1 using plain bupivacaine vs bupivacaine plus magnesium sulphate
13.	Dr. Nadia Murtaza	Dr. Aatir Fayyaz Associate Professor of Anaesthesia Nishtar Medical University, Multan	Comparison between serratus anterior plane block and thoracic paravertebral block for postoperative analgesia duration after video assisted thoracoscopic surgery using 0.375% ropivacaine
14.	Dr. Yasir Bashir Butt	On table agenda	
15.	Dr. Abnas Kousar		
16.	Dr. Anam Azeem		

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Anaesthesia** for review of MS synopses to be held on **Wednesday, 5th October 2022**, at **10:00 a.m.**, in University of Health Sciences, Lahore.

Sr. No.	Name of Candidate / Specialty	Supervisor	Title
1.	Dr. Iqra Maqsood (Revised)	Prof. Jodat Saleem Head, Department of Anesthesia Postgraduate Medical Institute/Lahore General Hospital, Lahore	Comparison of mean duration of post operative analgesia in patients undergoing total hip arthroplasty treated with supra inguinal fascia iliaca block vs pericapsular nerve group block
2.	Dr. Shahrukh Bashir		Comparison of three different doses of 0.75% hyperbaric bupivacaine for saddle block in elective perineal surgeries
3.	Dr. Fatima Khalid		Comparison between intravenous dexmedetomidine and local lignocaine infiltration to attenuate the hemodynamic response on skull pin head holder application during craniotomy
4.	Dr. Saima Batool	Dr. Sairah Sadaf Associate Professor of Anaesthesia Sheikh Zayed Medical College/Sheikh Zayed Hospital, Rahim Yar Khan	Video laryngoscopy versus conventional laryngoscopy in anticipated difficult intubation in thyroid surgery patients
5.	Dr. Rahmatullah	Dr. Syed Aushtar Abbas Naqvi Assistant Professor of Anaesthesia D.G Khan Medical College/DHQ Teaching Hospital, D.G. Khan	Comparative study of transverse abdominis plane block versus quadratus lumborum block for post-operative pain management in abdominal surgeries
6.	Dr. Khadija Ghafoor (Revised)	Prof. Muhammad Amer Head, Department of Anaesthesia Nishtar Medical University/ Nishtar Hospital Multan	Comparing the effect of tramadol and dexamethasone as an adjunct to 0.25% ropivacaine on post operative analgesia duration after traverses abdominis plane block in patients undergoing inguinal hernia repair in a tertiary care hospital
7.	Dr. Umaira Irfan (Revised)		Comparison of effect of thoracic epidural analgesia and thoracic paravertebral block on post OP analgesia duration after vats thymectomy
8.	Dr. Hoor Fatima		Comparison of effects of tramadol with dexamethasone as adjuvant to 0.375% ropivacaine in serratus anterior plane block on postoperative analgesia duration, blood sugar levels and hemodynamics in patients undergoing thoracotomy

9.	Dr. Ayesha Iqbal	Dr. Aatir Fayyaz Assistant Professor of Anaesthesia Nishtar Medical University/ Nishtar Hospital Multan	Positive end expiratory pressures on lung dynamics using laryngeal mask airway during minor gynecological procedures in adult females
10.	Dr. Hafiz Muhammad Fawad Bilal		Comparison of prophylactic role of ketamine and tramadol in prevention of shivering in spinal anesthesia for cesarean section at a tertiary care hospital
11.	Dr. Maryam Mahboob		Comparison of effect of ketamine with midazolam based analgo-sedation versus standard care on dynamic compliance airway resistance and pain relief among post Thoracotomy Patients in intensive care unit
12.	Dr. Moezah Hasnain	Dr. Nadeem Ahmed Khan Associate Professor of Anaesthesia Nishtar Medical University/Nishtar Hospital, Multan	Comparison of 0.25% ropivacaine plus buprenorphine and 0.25% ropivacaine plus dexmedetomidine in pectoral nerve block (pec ii block) for postoperative analgesia duration in patients undergoing unilateral breast surgery
13.	Dr. Umair Ashraf		Comparison of ultrasound guided supra inguinal fascia iliac block with pericapsular nerve group block for the ease of positioning for the induction of spinal anesthesia in patients undergoing hip replacement
14.	Dr. Adnan Nasir (Revised)	Dr. Kaneez Umme Farwa Assistant Professor of Anaesthesia Ch. Pervaiz Elahi Institute of Cardiology, Multan	Comparison of incidence of awareness in patients undergoing CABG using intraoperative infusion of dexmedetomidine versus propofol
15.	Dr. Iqra Shakoor	Dr. Muhammad Adnan Head Department of Anaesthesia The Children Hospital and The Institute of Child Health, Multan	Comparing the effects of dexmedetomidine-ketamine combination and dexmedetomidine alone on hemodynamics and time to achieve sedation in children undergoing MRI

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Anaesthesia** for review of MS synopses to be held on **Tuesday, 7th June 2022**, at **10:00 a.m.**, in University of Health Sciences, Lahore.

Sr.No	Name of Candidate / Specialty	Supervisor	Title
1.	Dr. Farooq Afzal	Prof. Jodat Saleem Professor of Anaesthesia Postgraduate Medical Institute/Lahore General Hospital, Lahore	Comparison between in-plane and out of plane technique for ultrasound guided cannulation of radial artery
2.	Dr. Mehrun Nisa Tariq		Comparison of post-op pain management in patients undergoing modified radical mastectomy with PEC block versus opioid analgesia
3.	Dr Tehreem Naz Akhtar	Dr. Muhammad Shahid Assistant Professor of Anaesthesia Sahiwal Medical College/ DHQ Teaching Hospital, Sahiwal	Ultrasound-guided thoracic paravertebral block vs. pectoral nerve block for analgesia after rib fractures
4.	Dr. Syed Ali Raza	Dr. Qudsia Anjum Qureshi Assistant Professor of Anaesthesia Rawalpindi Institute of Cardiology, Rawalpindi	Comparison of hemodynamic effects of propofol and two doses of ketofol for anaesthesia induction in CABG patients with moderate ejection fraction
5.	Dr. Adnan Nasir	Dr. Kaneez Umme Farwa Assistant Professor of Anaesthesia Ch. Pervaiz Elahi Institute of Cardiology, Multan	Comparison of incidence of awareness in patients undergoing CABG using intraoperative infusion of dexmedetomidine versus propofol
6.	Dr. Fatima Majeed		Prophylactic role of vasopressors and fluid preload in prevention of hypotension in spinal anesthesia for cesarean section: Randomized controlled trial
7.	Dr. Muhammad Arsalan	Prof. Muhammad Amir Professor of Anaesthesia Nishtar Medical University/Nishtar Hospital, Multan	Comparison of colloid preload with crystalloid coload to prevent subarachnoid block induced hypotension during cesarean section
8.	Dr. Rafia Komal Masood	Dr. Amir Furqan Assistant Professor of Anaesthesia Ch. Pervaiz Elahi institute of Cardiology, Multan	Comparison of effectiveness of atracurium and cisatracurium in patients having chronic obstructive pulmonary disease undergoing coronary artery bypass grafting surgery

9.	Dr. Tamseel Asghar		Comparing the effectiveness of propofol and ketofol on sedation in ICU patients after coronary artery bypass grafting CABG surgery: Randomized controlled trial
10.	Dr. Umaira Irfan		To compare the effect of low dose intravenous dexamethasone with placebo on post-operative analgesia duration in children receiving caudal analgesia after inguinal herniotomy.
11.	Dr. Aneeqa Khan	Prof. Ambreen Khan Professor of Anaesthesia Quaid-e-Azam Medical College/ Bahawal Victoria Hospital Bahawalpur	Comparative study of effects of dexmedetomidine vs mgso4 on hemodynamic response upon tracheal intubation and pneumoperitoneum in laparoscopic surgery

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Anaesthesia** for review of MS synopses to be held on **Tuesday, 13th September 2022**, at **10:00 a.m.**, in University of Health Sciences, Lahore.

Sr. No.	Name of Candidate / Specialty	Supervisor	Title
1.	Dr. Shamim Batool (Revised)	Dr. Syed Imran Ul Hassan Head, Department of Anaesthesia Punjab Institute of Cardiology, Lahore	To compare the hemodynamic effects of pre-induction sedative doses of IV morphine and IV midazolam in coronary artery bypass grafting (CABG) patients
2.	Dr. Kanwal Ijaz	Dr. Muhammad Omer Ajmal Associate Professor of Anaesthesia Sahiwal Medical College/ DHQ Teaching Hospital, Sahiwal	Comparison of bupivacaine infiltration versus diclofenac suppository for post-tonsillectomy pain relief in pediatric patients
3.	Dr. Anam Azeem	Dr. Faiqa Qurban Assistant Professor of Anaesthesia Gujranwala Medical College/ DHQ Teaching Hospital, Gujranwala	Efficacy of bupivacaine and magnesium sulphate added to bupivacaine used in the interscalene block for the upper limb surgeries
4.	Dr. Abnas Kousar	Dr. Salman Akhtar Assistant Professor of Anaesthesia Gujranwala Medical College/ DHQ Teaching Hospital, Gujranwala	Comparison of erector spinae block versus standard care (paracetamol, nalbuphine) for post operative analgesia in open cholecystectomy
5.	Dr. Saadia Butt	Prof. Ashraf Zia Head Department of Anaesthesia Allama Iqbal Medical College/ Jinnah Hospital, Lahore	Thoracic paravertebral block versus pectoral nerve block for analgesia after breast surgery
6.	Dr. Muhammad Zohaib		Comparison of supra-inguinal fascia iliaca versus pericapsular nerve block for ease of positioning during spinal anesthesia in hip surgery: A Randomized Trial
7.	Dr. Sadaf Zulfiqar Ali Khan	Prof. Jodat Saleem Head, Department of Anesthesia Postgraduate Medical Institute/Lahore General Hospital, Lahore	Comparison of mean postoperative duration of analgesia and pain score in patients undergoing abdominal hysterectomy treated with transversus abdominis plane block vs quadratus lumborum block
8.	Dr. Iqra Javaid		Comparison between outcomes of ropivacaine 0.5% +4 mg dexamethasone versus ropivacaine 0.5% + 8mg dexamethasone supraclavicular brachial plexus block during forearm surgery

9.	Dr. Ayesha Akram		Comparative study between 0.25% bupivacaine with 0.1mg/kg dexamethasone and 0.25% bupivacaine with 0.5mcg/kg dexmedetomidine as an adjuvant for interscalene brachial plexus block for shoulder surgery
10.	Dr. Hamida Arshad		Comparison of effectiveness of quadratus lumborum block in post-op analgesia after nephrectomy using ropivacaine 0.25% versus ropivacaine 0.25% with 10 micrograms dexmedetomidine
11.	Dr. Saima Abdul Haq		Comparison of TAP block versus erector spinae blocks for post-operative analgesia in the patients undergoing urological procedure with Morrison's incision
12.	Dr. Ammarah Arshad		Comparison of efficacy of intrathecal magnesium sulphate and tramadol as adjunct to hyperbaric bupivacaine for postoperative analgesia in patients undergoing lower limb orthopedic surgery

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of Speciality Advisory Committee in Anaesthesia to be held on **Monday, 14th June, 2021** at **11:30 a.m.** in University of Health Sciences, Lahore.

AGENDA

Sr.No	Name of Candidate / Specialty	Supervisor	Title
1.	Dr. Shahryar M.S. (Anaesthesia)	Prof. Mazhar Iqbal Professor of Anaesthesia Punjab Institute of Cardiology Lahore	The effect of intranasally administered nitroglycerin on presser response to laryngoscopy and intubation among patients undergoing coronary artery bypass grafting (CABG) surgery
2.	Dr. Nadia Riaz M.S. (Anaesthesia)	Dr. Khaleel Ahmad Padhyar Assistant Professor of Anaesthesia Nawaz Sharif Medical College/Aziz Bhatti Shaheed Teaching Hospital Gujrat	Comparing the effect of two different induction regimens with propofol on haemodynamics during laryngoscopy and tracheal intubation in hypertensive patients
3.	Dr. Shahid Nasim M.S. (Anaesthesia)	Dr. Muhammad Shahid Assistant Professor of Anaesthesia Sahiwal Medical College/DHQ Teaching Hospital Sahiwal	Comparative study of usage of laryngeal mask airway and endotracheal intubation in children at tertiary care hospital
4.	Dr. Hafiz Malik Muhammad Ahsan M.S. (Anaesthesia)		A comparative study on the efficacy of dexmedetomidine and tramadol on post spinal anaesthesia shivering
5.	Dr. Hafsa Tariq M.S. (Anaesthesia)		Effectiveness of bupivacaine alone and bupivacaine + dexmedetomidine wound infiltration in patient undergoing lower abdominal surgeries under general anaesthesia in DHQ Teaching Hospital Sahiwal
6.	Dr. Muhammad Salar M.S. (Anaesthesia)	Dr. Nadeem Ahmad Khan Associate Professor of Anaesthesia Nishtar Medical College/Nishtar Hospital Multan	Comparison of efficacy of ketamine gargle versus lidocaine jelly application for the prevention of postoperative throat pain following general anaesthesia with endotracheal intubation
7.	Dr. Shazia Akbar M.S. (Anaesthesia)		Comparing the effectiveness of succinylcholine dosage regimens for rapid sequence induction in emergency general surgical procedures
8.	Dr. Nemrah Farooq M.S. (Anaesthesia)		To compare the efficacy of modified Mallampati test & thyromental distance to predict difficult endotracheal intubation
9.	Dr. Waseema Afzal M.S. (Anaesthesia)	Dr. Kaneez Umme Farwa Assistant Professor of Anaesthesia Ch. Pervaiz Elahi Institute of Cardiology, Multan	Impact of intraoperative parameters on extubation time in cardiac surgery patients
10.	Dr. Adnan Shakoor M.S. (Anaesthesia)	Dr. Aamir Furqan Assistant Professor of Anaesthesia Ch. Pervaiz Elahi Institute of Cardiology Multan	Comparison of the hemodynamic effects of cisatracurium and atracurium in patients with low ejection fraction undergoing coronary artery bypass grafting

			surgery (CABG)
--	--	--	----------------

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Anaesthesia** for review of MS synopses to be held on **Monday, 15th August 2022**, at **10:00 a.m.**, in University of Health Sciences, Lahore.

Sr. No.	Name of Candidate / Specialty	Supervisor	Title
1.	Dr. Sahar Gull (Revised)	Prof. Naila Asad Ex-Professor of Anaesthesia Services Institute of Medical Sciences/ Services Hospital, Lahore	Emergency agitation in children undergoing tonsillectomy: A comparison between propofol and ketofol
2.	Dr. Haneea Rehman (Revised)	Prof. Ashraf Zia Department of Anaesthesia Allama Iqbal Medical College/ Jinnah Hospital, Lahore	Comparative Study of Biomarkers Procalcitonin and c-reactive protein in rapid detection of sepsis in intensive care unit
3.	Dr. Abdul Ali	Dr. Saeedah Assaf Associate Professor of Anaesthesia The Children Hospital and Institute of Child Health, Lahore	Comparison of analgesic effect of ultrasound guided transverses abdominus plane block with bupivacaine vs ultrasound guided tap block with bupivacaine and dexmedetomidine in children undergoing open pyeloplasty
4.	Dr. Tamseel Asghar (Revised)	Dr. Amir Furqan Assistant Professor of Anaesthesia Ch. Pervaiz Elahi Institute of Cardiology, Multan	Comparing the effectiveness of ketamine propofol (ketofol) versus magnesium sulphate propofol on sedation in ICU patients after coronary artery bypass grafting surgery
5.	Dr. Hina Samreen (Revised)	Prof. Rana Altaf Ahmad Professor of Anaesthesia/ Vice Chancellor, Nishtar Medical University/ Nishtar Hospital, Multan	To compare the effectiveness of magnesium sulphate with placebo on cognitive dysfunction in patients undergoing on-pump cardiac surgery
6.	Dr. Taha Malik	Dr. Kaneez Umme Farwa Assistant Professor of Anaesthesia Ch. Pervaiz Elahi Institute of Cardiology, Multan	Comparison of effectiveness of NIRS monitoring v/s no NIRS monitoring in preventing post op cognitive dysfunction in patients undergoing cardiac surgery
7.	Dr. Hafiza Anam Nasir	Dr. Muhammad Adnan Head Department of Anaesthesia The Children and the Institute of Child Health, Multan	Comparison of effectiveness and safety of caudal analgesia versus caudal analgesia and adjuvant intravenous magnesium sulphate on postoperative pain among children undergoing infraumbilical surgeries at a tertiary care hospital

8.	Dr. Muhammad Naveed (Revised)	Dr. Qudsia Anjum Qureshi Assistant Professor of Anaesthesia Rawalpindi Institute of Cardiology, Rawalpindi	Comparison between ketamine - propofol vs ketamine - dexmedetomidine in controlling recovery agitation in pediatric catheterization procedures
9.	Dr. Maria Ahmad		Effect of two different doses of dexmedetomidine on hemodynamic parameters in patients undergoing cardiac surgical procedures: A randomized, clinical trial study
10.	Dr. Ifrah Sabir (Revised)	Dr. Mohsin Riaz Askri Associate Professor & Head Department of Anaesthesia Faisalabad Medical University/ Allied Hospital, Faisalabad	Comparison of bupivacaine and tramadol with bupivacaine and dexmedetomidine in ultrasound guided adductor canal block for post operative analgesia
11.	Dr. Bismah Jabeen (Revised)		A Comparative study of transversus abdominis plane block versus quadratus lumborum block for postoperative analgesia following total abdominal hysterectomy
12.	Dr. Zubair Asmat		Comparison of outcomes of intravenous tramadol and dexmedetomidine in post-spinal anesthesia pain and shivering management after caesarean section
13.	Dr. Bushra Hameed	Dr. Syed Mehmood Ali Associate Professor of Anaesthesia Shaikh Zayed Postgraduate Medical Institute/Shaiikh Zayed Hospital, Lahore	Comparison of prophylactic use of intravenous paracetamol versus intravenous tramadol to prevent postoperative shivering after general anaesthesia in laparoscopic cholecystectomy
14.	Dr. Mariam Zafar	Dr. Faiqa Qurban Head Department of Anaesthesia Gujranwala Medical College/ DHQ Teaching Hospital, Gujranwala	Comparison of post-dural puncture headache in patients undergoing spinal anesthesia using 25-G and 27-G spinal quince needles
15.	Dr. Dania Arshad		Comparison of time duration required in video laryngoscopy v/s direct laryngoscopy for adult patients requiring tracheal intubation

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of Speciality Advisory Committee in Anaesthesia for review of MS synopses to be held on **Wednesday, 19th January, 2022** at **10:30 a.m.** in University of Health Sciences, Lahore.

AGENDA

Sr.No	Name of Candidate / Specialty	Supervisor	Title
1.	Dr. Muhammad Jahangeer (Revised)	Prof. Rana Altaf Ahmad Vice Chancellor Nishtar Medical University Multan	Comparison of labetalol and fentanyl with fentanyl alone for hemodynamic stability in patients undergoing coronary artery bypass graft surgery
2.	Dr. Rabia Akram	Prof. Naila Asad Ex-Professor of Anaesthesia Services Institute of Medical Sciences/ Services Hospital Lahore	Attenuation of post spinal shivering in TURP; comparison of dexmedetomidine and tramadol
3.	Dr. Ayesha Ashraf Nauman	Dr. Syed Imran Ul Hassan Head of Anaesthesia Department Punjab Institute of Cardiology Lahore	Dexmedetomidine versus midazolam as a procedural sedation agent in coronary artery bypass surgery
4.	Dr. Saba Noor Hamid (Revised)	Dr. Saeedah Asaf Associate Professor of Anesthesia The Children Hospital and the Institute of Child Health Lahore	Optimal dose of dexmedetomidine for sedation in fiberoptic intubation in pediatric population
5.	Dr. Mah Rukh Naqvi (Revised)		The comparison of dexmedetomidine and midazolam premedication on emergence delirium in children for hernia repair surgery: A randomized controlled trial
6.	Dr. Muhammad Awais Rasheed (Revised)		Comparison of the analgesic efficacy of ultrasound guided tap block with quadratus lumborum block for postoperative pain in children undergoing lower abdominal surgery
7.	Dr. Hafiz Malik Muhammad Ahsan Waseem (Revised)	Dr. Muhammad Shahid Associate Professor of Anesthesia Sahiwal Medical College/ DHQ Teaching Hospital, Sahiwal	Comparison of intravenous versus intrathecal tramadol in prevention of post-spinal anaesthesia shivering
8.	Dr. Ahmad Riaz (Revised)		Comparison of intranasal ketamine with midazolam as premedication in children undergoing herniorrhaphy under general anaesthesia
9.	Dr. Hafiz Muhammad Umair (Revised)		Comparison of discharge readiness based on MPADSS discharge scale between propofol plus dexmedetomidine and propofol plus ketorolac in patients undergoing D&C at Sahiwal teaching hospital
10.	Dr. Talal Shahid		Comparative evaluation of dexmedetomidine and paracetamol on perioperative hemodynamics and postoperative analgesia for patients undergoing laparoscopic

			cholecystectomy
11.	Dr. Anam Mukhtar	Dr. Muhammad Omer Ajmal Associate Professor of Anesthesia Sahiwal Medical College/ DHQ Teaching Hospital, Sahiwal	Comparison of dexmedetomidine versus lidocaine as an adjuvant to general anesthesia in patients undergoing laparotomy for abdominal surgery
12.	Dr. Muhammad Saleem Iqbal	Prof. Ambreen Khan Head of Anaesthesia Department Quaid-e-Azam Medical College/ Bahawal Victoria Hospital, Bahawalpur	Comparison of Effect of Magnesium sulphate Vs placebo on succinylcholine-induced fasciculation
13.	Dr. Muhammad Akhtar (Revised)	Dr. Salman Akhtar Assistant Professor of Anaesthesia Gujranwala Medical College/ DHQ Teaching Hospital, Gujranwala	Comparison of intratracheal dexmedetomidine and lignocaine on recovery profile from general anaesthesia in laparoscopic cholecystectomy
14.	Dr. Zaheer Ahmed Khan		A comparison of the efficacy of oral gabapentin and oral tramadol as a pre-emptive analgesic in patients undergoing open cholecystectomy
15.	Dr. Naveed Iqbal (Revised)	Dr. Aatir Fayyaz Associate Professor of Anaesthesia Nishtar Medical University/ Nishtar Hospital, Multan	Comparing the hemodynamic changes when supraglottic airway devices inserted with propofol vs sevoflurane during surgical procedures
16.	Dr. Nemrah Farooq (Revised)	Dr. Nadeem Ahmed Khan Associate Professor of Anaesthesia Nishtar Medical University/ Nishtar Hospital, Multan	Comparative study on the intraoperative effects of conventional mechanical ventilation and lung protective ventilation on respiratory mechanics in patients with traumatic brain injury: a randomized controlled trial in a tertiary care hospital

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of Speciality Advisory Committee in Anaesthesia for review of MS synopses to be held on **Friday, 19th November, 2021** at **09:30 a.m.** in University of Health Sciences, Lahore.

AGENDA

Sr.No	Name of Candidate / Specialty	Supervisor	Title
1.	Dr. Sahar Gull	Prof. Naila Asad Ex-Professor of Anaesthesia Services Institute of Medical Sciences Lahore	Emergence Agitation in children undergoing tonsillectomy: a comparison between propofol and ketopop
2.	Dr. Adil Ashraf	Prof. Jodat Saleem Professor of Anaesthesia Postgraduate Medical Institute/Lahore General Hospital Lahore	Comparison of Mean Duration of Postoperative Analgesia in patients undergoing C-section under Spinal Anesthesia with Bupivacaine Vs. Bupivacaine plus Buprenorphine
3.	Dr. Muhammad Umer Iqbal	Dr. Mohsin Riaz Askari Assistant Professor of Anaesthesia Faisalabad Medical University, Faisalabad	Comparison of analgesic effect of dexmedetomidine added to bupivacaine versus bupivacaine only in ultrasound guided Bilateral rectus sheath block (BRSB) in midline incision laparotomy.
4.	Dr. Zenab Ilyas Rajput	Dr. Liaqat Ali Associate Professor of Anaesthesia, Allama Medical College/ Jinnah Hospital Lahore	Correlation of Inferior Vena Cava Diameter with central venous pressure in the assessment of intravascular volume in critically III patients
5.	Dr. Saba Noor Hamid	Dr. Saeedah Asaf Associate Professor of Anesthesia The Children Hospital and the Institute of Child Health, Lahore	Comparison of dexmedetomidine 1mcg/kg versus 2mcg/kg in fiberoptic intubation in non-difficult airway in pediatric population.
6.	Dr. Adeela Rahman	Dr. Aatir Fayyaz Associate Professor of Anesthesia Nishtar Medical University, Multan	Comparing the effect of intraoperative Dextrose 10 percent & Ringer lactate as maintenance fluid on the incidence of postoperative Nausea and vomiting after Laparoscopic cholecystectomy.
7.	Dr. Ahmad Haris Suhail	Dr. Syed Mehmood Ali Associate Professor of Anesthesia Postgraduate Medical Institute, Shaikh Zayed Hospital, Lahore	Intubation success rate between videolaryngoscopy and conventional laryngoscopy in patients with modified mallampati classification III and IV
8.	Dr. Salman Humayun	Prof. Ashraf Zia Head Department of Anaesthesia, Allama Medical College/ Jinnah Hospital Lahore	Comparison of intravenous dexmedetomidine versus lignocaine in attenuating the hemodynamic response during laryngoscopy and endotracheal tube intubation

9.	Dr. Tehreem Naz Akhtar	Dr. Muhammad Shahid Associate Professor of Anaesthesia DHQ Teaching Hospital/Sahiwal Medical College, Sahiwal	Comparison of caudal v/s intravenous dexamethasone as adjuvant for caudal epidural block
10.	Dr. Iram Tahir	Dr. Muhammad Shahid Associate Professor of Anaesthesia DHQ Teaching Hospital/Sahiwal Medical College, Sahiwal	Comparison of dexmedetomidine and tramal as an adjunct to intravenous regional anesthesia in upper limb surgeries in orthopedic patients
11.	Dr. Ayesha Ashraf	Dr. Syed Imran Ul Hassan Head of Anaesthesia Department Punjab Institute of Cardiology Lahore	To compare the midazolam and dexmedetomidine as an anxiolytic in coronary artery bypass graft surgery.

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Anaesthesia** for review of MS synopses to be held on **Wednesday, 20th April 2022 at 11:30 a.m.**, in University of Health Sciences, Lahore.

Sr.No	Name of Candidate / Specialty	Supervisor	Title
1.	Dr. Farah Niaz Awan	Dr. Syed Mehmood Ali Associate Professor of Anaesthesia Sheikh Zayed Postgraduate Medical Institute, Lahore	Outcomes of upper airway ultrasonography versus capnography in rapid confirmation of endotracheal tube placement in patients of general anesthesia
2.	Dr. Huria Waheed	Dr. Riffat Zahid Assistant Professor of Anaesthesia Sheikh Zayed Postgraduate Medical Institute, Lahore	Comparison of outcome of ultrasonography-guided techniques versus conventional landmark technique for confirmation of epidural space during epidural block
3.	Dr. Rukhsana Begum	Dr. Saeedah Asaf Associate Professor of Anaesthesia The Children Hospital and The Institute of Child Health, Lahore	Comparison between USG guided and age based method estimation of endotracheal tube size in pediatric population. A randomized controlled trial
4.	Dr. Ifrah Sabir	Dr. Mohsin Riaz Askri Associate Professor & Head, Department of Anaesthesia Faisalabad Medical University/Allied Hospital, Faisalabad	Comparison of bupivacaine alone vs bupivacaine with dexmedetomidine in supraclavicular block for post-operative analgesia
5.	Dr. Arfa Rauf		Comparison of oral pregabalin and intravenous lignocaine in attenuating stress response during intubation in hypertensive patients
6.	Dr. Arshia Maqbool		Post-operative analgesia: A comparison between bupivacaine alone and bupivacaine plus buprenorphine in ultra sound guided supraclavicular brachial plexus block
7.	Dr. Nazish Syed	Dr. Sairah Sadaf Associate Professor of Anaesthesia Sheikh Zayed Medical college/Sheikh Zayed Hospital, Rahim Yar Khan	Comparison of dexmedetomidine and midazolam for sedation in patient undergoing weaning in intensive care unit
8.	Dr. Shaji Ullah Khosa	Dr. Syed Aushtar Abbas Assistant Professor of Anaesthesia D.G Khan Medical College/Teaching Hospital, Dera Ghazi Khan	Comparison of Recovery characteristics of propofol infusion and sevoflurane as the sole maintenance agent in renal surgeries under general anesthesia

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Anaesthesia** for review of MS synopses to be held on **Wednesday, 22nd June 2022**, at **10:00 a.m.**, in University of Health Sciences, Lahore.

Sr. No.	Name of Candidate / Specialty	Supervisor	Title
1.	Dr. Sameera Saeed	Prof. Naila Asad Ex-Professor of Anaesthesia Services Institute of Medical Sciences/ Services Hospital Lahore	Correlation of waist to hip ratio & body mass index to the hypotension during spinal anesthesia during cesarean section
2.	Dr. Sobia Arshad	Prof. Jodat Saleem Professor of Anaesthesia Postgraduate Medical Institute/Lahore General Hospital, Lahore	Comparison of mean duration of post-operative analgesia in patients undergoing modified radical mastectomy operations treated with ultrasound guided erector spinae plane block vs ultrasound guided modified pectoral plane block
3.	Dr. Zeerak Laila		Comparison of preoperative anxiety in females undergoing elective caesarean section under general anesthesia vs spinal anesthesia
4.	Dr. Azwa Sana		Comparison of 2 units versus 5 units of oxytocin in elective caesarean section with respect to hemodynamic changes
5.	Dr. Hifza Idrees (Revised)	Dr. Syed Imran Ul Hassan Associate Professor of Anaesthesia Punjab Institute of Cardiology Lahore	To study renoprotective effect of dexmedetomidine in on-pump coronary artery bypass grafting patients
6.	Dr. Muhammad Omair	Dr. Saeedah Asaf Associate Professor of Anaesthesia The Children Hospital and The Institute of Child Health, Lahore	Comparison of ketamine-propofol and ketamine-dexmedetomidine combination for closed reduction of fractures in children
7.	Dr. Hani Gul	Dr. Riffat Saeed Assistant Professor of Anaesthesia Sheikh Zayed Postgraduate Medical Institute, Lahore	Comparative study of safety and effectiveness between IV dexmedetomidine and IV propofol for procedural sedation during upper GI endoscopic interventions
8.	Dr. Shahzad	Prof. Ashraf Zia Head Department of Anaesthesia, Allama Medical College/ Jinnah Hospital Lahore	Comparison of femoral nerve block and Pericapsular Nerve Group (PENG) block for preoperative and postoperative pain management in fracture neck of femur

9.	Dr. Azmeena Azam		Comparison of Inferior vena cava distensibility index and pulse pressure variation as predictors of fluid responsiveness in mechanically ventilated shocked patients
10.	Dr. Madeeha Khalid	Dr. Raza Farrukh Assistant Professor of Anaesthesia Sargodha Medical College/ DHQ Teaching Hospital, Sargodha	Efficacy of nalbuphine vs ketamine for the control of shivering in patients undergoing LSCS under spinal anaesthesia
11.	Dr. Shaista Parveen		Comparison of analgesic efficacy of caudal dexmedetomidine versus caudal tramadol as an adjuvant with bupivacaine in pediatric infraumbilical surgery
12.	Dr. Iffat Shameem (Revised)	Dr. Syed Aushtar Abbas Naqvi Assistant Professor of Anaesthesia D.G Khan Medical College/THQ Teaching Hospital D.G. Khan	Comparison of prophylactic use of phenylephrine and ephedrine for prevention of hypotension in elective C-section under spinal anesthesia
13.	Dr. Maryam Zahra		Comparison of fractionated dose versus bolus dose 0.75% bupivacaine in spinal anesthesia for patients undergoing elective caesarean section
14.	Dr. Iqra Javid	Dr. Faiqa Qurban Head Department of Anaesthesia Gujranwala Medical College/ DHQ Teaching Hospital, Gujranwala	Comparison of efficacy of bupivacaine with dexamethasone versus bupivacaine alone during USG guided transversus abdominis plane block for post-operative analgesia in patients undergoing exploratory laparotomy
15.	Dr. Haseeb Ahmed Khan (Revised)	Dr. Robina Firdous Ex-Professor of Anaesthesia Faisalabad Medical University, Faisalabad	Effectiveness of ultrasound guided erector spinae plane block versus intravenous ketorolac for post-operative analgesia in laparoscopic cholecystectomy
16.	Dr. Sibtain Ali Hashmi	Dr. Mohsin Riaz Askari Associate Professor of Anaesthesia Faisalabad Medical University, Faisalabad	Comparison of ultrasound guided TAP block vs conventional Local Anesthetic Infiltration (LAI) technique for postoperative pain management in inguinal hernia repair
17.	Dr. Muhammad Mubashir Javed	Dr. Sairah Sadaf Associate Professor of Anaesthesia Sheikh Zayed Medical College/Sheikh Zayed Hospital Rahim Yar Khan	Comparison of epidural dexmedetomidine and neostigmine as adjuvants to bupivacaine used for lower limb surgeries alone and in combination

18.	Dr. Daud Manna	Dr. Atir Fayyaz Assistant Professor of Anaesthesia Nishtar Medical University/Nishtar hospital, Multan	Comparison of warm and cold intrathecal bupivacaine 0.75% on shivering in elective cesarean section under spinal anesthesia
19.	Dr. Khadija Ghafoor	Prof. Muhammad Amir Professor of Anaesthesia Nishtar Medical University/Nishtar Hospital, Multan	Comparing the effect of 0.25% ropivacaine with and without dexamethasone on postoperative analgesia duration after transversus abdominis plane block in patients undergoing inguinal hernia repair in a tertiary care hospital
20.	Dr. Rauf Iqbal	Dr. Muhammad Adnan Head Department of Anaesthesia The Children Hospital & The Institute of Child Health, Multan	Comparison of effect of ketamine- propofol and ketamine- dexmedetomidine on sedation and recovery time for pediatric upper GI endoscopy in children hospital
21.	Dr. Hina Samreen	Prof. Rana Altaf Ahmad Professor of Anaesthesia Ch. Pervaiz Elahi Institute of Cardiology, Multan	To compare the effectiveness of lidocaine with conventional regime on cognitive dysfunction in patients undergoing on-pump cardiac surgery
22.	Dr. Tayyaba Ibrahim	Dr. Qudsia Anjum Qureshi Assistant Professor of Anaesthesia Rawalpindi Institute of Cardiology, Rawalpindi	Comparison of postoperative pain scores in patients undergoing CABG surgery with and without ultrasound guided pectointercostal fascial block
23.	Dr. Muhammad Naveed		Comparison between ketamine propofol vs ketamine dexmedetomidine in controlling recovery agitation in pediatric catheterization procedures

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Anaesthesia** for review of MS synopses to be held on **Tuesday, 22nd November 2022**, at **10:00 a.m.**, in University of Health Sciences, Lahore.

Sr. No.	Name of Candidate	Supervisor	Title
1.	Dr. Rabia Kanwal	Prof. M. Ashraf Zia Prof. & Head Department of Anaesthesia, Allama Iqbal Medical College, Lahore	Efficacy of aprepitant for attenuation of post operative nausea and vomiting and analgesia requirement after laparoscopic cholecystectomy
2.	Dr. Rabia Naz	Prof. Jodat Saleem Prof. & Head Department of Anaesthesia, Postgraduate Medical Institute, Lahore	Comparative study of different ETCO ₂ level in prevention of PONV in laparoscopic surgeries
3.	Dr. Saima Ambreen		Comparative study between 0.25% bupivacaine with 0.1mg/kg dexamethosone and 0.25% bupivacaine with 0.5mcg/kg dexmedetomidine as an adjuvant for fascia iliaca block for post op analgesia in patients undergoing surgery for neck of femur fracture
4.	Dr. Kiran Fatima	Prof. Muhammad Amer Department of Anesthesia, Nishtar Medical University, Multan	The efficacy of unilateral paravertebral block versus spinal anesthesia for ambulatory reducible inguinal hernia
5.	Dr. Fatima Khan	Dr. Nadeem Ahmad Khan Associate Professor of Anaesthesia, Nishtar Medical University, Multan	Comparing the effects of induced hypernatremia and normo-natremia in critically ill patients with acute respiratory distress syndrome
6.	Dr. Daud Manna (Revised)	Dr. Aatir Fayyaz Assistant Professor of Anaesthesia, Nishtar Medical University, Multan	Comparison between continuous erector spinae plane block versus Thoracic epidural for analgesia in postoperative thoracotomy patients
7.	Dr. Amtul Zahra	Dr. Muhammad Usman Mohsin Assistant Professor of Anaesthesia, Nishtar Medical University, Multan	Comparison of duration of postoperative pain relief while using plain lidocaine plus nalbuphine in Bier's block among patients undergoing upper limb surgery
8.	Dr. Kiran Javaid	Dr. Syed Aftab Haider Assistant Professor of Anaesthesia, Nishtar Medical University, Multan	Efficacy of bilateral superficial cervical plexus block for analgesia after thyroidectomy

9.	Dr. Abeera Rashid	Dr. Raza Farrukh Assistant Professor of Anaesthesia, Sargodha Medical College, Sargodha	Comparison of the effectiveness of supraclavicular block versus Bier's block in forearm surgery in trauma patients
10.	Dr. Madeeha Khalid		Comparison of Nalbuphine vs ketamine for the control of peri-operative shivering in patients undergoing gynaecological surgery under spinal anaesthesia
11.	Dr. Ali Nasir		Comparison of retro clavicular infraclavicular brachial plexus block with classical coracoid infraclavicular brachial plexus block using 0.5% ropivacaine in patients undergoing forearm surgery
12.	Dr. Ulfat Hassan	Prof. Saeedah Asaf Professor of Anaesthesia, The Children's Hospital & Institute of Child Health, Lahore	Comparison of analgesic effect of quadratus lumborum block (lateral approach) and erector spinae plane block in paediatric patients undergoing lower abdominal surgery
13.	Dr. Zarish Fatima Malik		Comparison of analgesic effects of ultrasound guided superficial and deep serratus anterior plane block in children undergoing thoracotomy
14.	Dr. Iram Younas		Comparison of intravenous ketorolac versus intravenous ibuprofen for postoperative pain control in upper limb surgery

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Anaesthesia** for review of MS synopses to be held on **Wednesday, 25th January 2023**, at **10:00 a.m.**, in University of Health Sciences, Lahore.

Sr. No.	Name of Candidate	Supervisor	Title
1.	Dr. Saadia Butt	Prof. M. Ashraf Zia Prof. & Head Department of Anaesthesia, Allama Iqbal Medical College Lahore	Thoracic paravertebral block versus pectoral nerve block for analgesia after breast surgery
2.	Dr. Sidra Azam	Prof. Jodat Saleem Prof. & Head Department of Anaesthesia, Postgraduate Medical Institute Lahore	Comparison of opioid based with non-opioid based analgesia for post-operative pain management in patients undergoing total abdominal hysterectomy
3.	Dr. Bushra Hameed	Dr. Syed Mehmood Ali Associate Professor of Anaesthesia Shaik Zayed Postgraduate Medical Institute, Lahore	Comparison of prophylactic use of intravenous paracetamol versus intravenous dexamethasone to prevent postoperative shivering after general anaesthesia in laparoscopic cholecystectomy
4.	Dr. Arshia Maqbool	Dr. Sehar Shafiq Assistant Professor of Anaesthesia Faisalabad Medical University, Faisalabad	Comparison of ropivacaine 0.25% plus dexmedetomidine and ropivacaine 0.25% plus tramadol post up analgesia in interscalene brachial plexus block.
5.	Dr. Momina Ishtiaq	Dr. Mohsin Riaz Askari Associate Professor of Anaesthesia Faisalabad Medical University, Faisalabad	Comparison of 0.25% bupivacaine with 0.25 ropivacaine in quadratus lumborum block for postoperative analgesia following total abdominal hysterectomy
6.	Dr. Tehreem Naz Akhtar	Dr. Muhammad Shahid Assistant Professor of Anaesthesia Sahiwal Medical College Sahiwal	Role of dexmedetomidine in decreasing emergence agitation in infant patients undergoing cleft palate repair surgery after general anesthesia
7.	Dr. Maria Ahmad	Dr. Qudisa Anjum Qureshi Assistant Professor of Anaesthesia Rawalpindi Institute of Cardiology, Rawalpindi	Effect of dexmedetomidine and morphine on hemodynamic parameters in patients undergoing cardiac surgical procedures: A randomized, clinical trial study
8.	Dr. Saima Batool	Dr. Sairah Sadaf Associate Professor of Anaesthesia Shaikh Zayed Medical College Rahim Yar Khan	Comparison of bupivacaine alone and bupivacaine plus dexamethasone in erector spinae plane block for post operative analgesia after thoracotomy
9.	Dr. Rauf Iqbal	Dr. Muhammad Adnan Head, Department of Anaesthesia The Children Hospital & the Institute of Child Health, Multan	Comparison of effect of ketamine-propofol and ketamine-dexmedetomidine on sedation and recovery time for pediatric upper gastrointestinal endoscopy
10.	Dr. Iqra Shakoore		Comparing the effects of dexmedetomidine-ketamine combination and dexmedetomidine alone on hemodynamics and time to achieve sedation in children undergoing MRI

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Anaesthesia** for review of MS synopses to be held on **Wednesday, 27th April 2022**, at **11:00 a.m.**, in University of Health Sciences, Lahore.

Sr.No	Name of Candidate / Specialty	Supervisor	Title
1.	Dr. Sania Anwar	Dr. Saeedah Asaf Associate Professor of Anaesthesia The Children Hospital and The Institute of Child Health, Lahore	Comparison of femoral arterial catheterization by ultrasound guided technique versus palpatory method in children undergoing cardiac surgery and their complications
2.	Dr. Rabia Khalid		Comparison of severity of atelectasis after rigid bronchoscopy for removal of airway foreign body with or without post-procedural intubation
3.	Dr. Iqra Khan		To compare the safety and efficacy of dexmedetomidine vs fentanyl I/V anaesthesia for foreign body removal with rigid bronchoscopy in children maintaining spontaneous ventilation
4.	Dr. Sidra Azam	Prof. Jodat Saleem Professor of Anaesthesia Postgraduate Medical Institute/Lahore General Hospital, Lahore	Comparison of opioid based analgesia (nalbuphine infusion) with non opioid based analgesia (emulsion of lignocaine and magnesium sulphate) for post-operative pain management in patients undergoing total abdominal hysterectomy
5.	Dr. Syed Ali Raza (Revised)	Dr. Qasim Anjum Qureshi Assistant Professor of Anaesthesia Rawalpindi Institute of Cardiology, Rawalpindi	Comparison of hemodynamic effects of propofol and two doses of ketofol for anaesthesia induction in CABG patients with moderate ejection fraction
6.	Dr. Sara Saleem	Dr. Amir Furqan Department of Anaesthesia Ch. Pervaiz Elahi institute of Cardiology, Multan	Efficacy of prophylactic use of intrathecal dexmedetomidine in preventing postoperative shivering in patients undergoing spinal anaesthesia
7.	Dr. Iffat Shameem	Dr. Syed Aushtar Abbas Naqvi Assistant Professor of Anaesthesia D.G Khan Medical College/Teaching Hospital, Dera Ghazi Khan	Comparison of dexmedetomidine versus nitroglycerine as an adjunct to lidocaine for Intravenous Regional Anaesthesia (IVRA)
8.	Dr. Ayaz Haider		Comparison of prophylactic use of phenylephrine and ephedrine for prevention of hypotension in elective C-section under spinal anaesthesia

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of Speciality Advisory Committee in Anaesthesia for review of MS synopses to be held on **Tuesday, 27th July, 2021** at **11:00 a.m.** in University of Health Sciences, Lahore.

AGENDA

Sr.No	Name of Candidate / Specialty	Supervisor	Title
1.	Dr. Alina Zafar	Dr. Sairah Sadaf Assistant Professor & Head, Department of Anaesthesia Shiekh Zayed Medical College/Sheikh Zayed Hospital, Rahim Yar Khan	Comparison of effectiveness of Bupivacaine alone versus Bupivacaine with Dexmedetomidine in Transversus Abdominis Plane Block for pain relief in patients undergoing abdominal surgeries.
2.	Dr. Misbah Iqbal	Prof. Dr. Ashraf Zia Head Department of Anesthesia Allama Iqbal Medical College/Jinnah Hospital, Lahore	Comparative study of the Analgesic efficacy of Iv ibuprofen and IV paracetamol in patients after laparoscopic cholecystectomy
3.	Dr. Hafiz Muhammad Umair	Dr. Muhammad Shahid Associate Professor of Anaesthesia Sahiwal Medical College/ DHQ Teaching Hospital, Sahiwal	To compare discharge readiness based on MPADSS discharge scale between propofol, dexmedetomidine combination and propofol plus placebo in patients undergoing colonoscopy at DHQ Teaching Hospital Sahiwal
4.	Dr. Ahmad Riaz		Comparison of upper lip bite test and thyromental distance in predicting difficult laryngoscopy in adult patients undergoing elective surgery
5.	Dr. Syed Ali Raza	Dr. Qudsia Anjum Qureshi Assistant professor of Anaesthesia Rawalpindi Institute of Cardiology, Rawalpindi	Effect of operating table height on ease of intubation and mask ventilation
6.	Dr. Shakil Ahmad Awan	Prof. Ambreen Khan Professor of Anesthesia Quaid-I-Azam Medical College/ Bahawal Victoria Hospital, Bahawalpur	Comparison of the post-operative pain relief with bupivacaine and bupivacaine plus tramadol for caudal block in children in terms of mean duration of analgesia
7.	Dr. Fatima Khan	Dr. Nadeem Ahmed Khan Associate Professor of Anaesthesia Nishtar Medical University/Nishtar Hospital, Multan	Comparing the effect of hyperbaric bupivacaine and hyperbaric bupivacaine with dexmedetomidine on postoperative analgesia in Total Hip Arthroplasty (THA)
8.	Dr. Zaighum Hussain	Dr. Syed Aftab Haider Associate Professor of Anaesthesia Nishtar Medical University/Nishtar Hospital, Multan	Comparison of Dexmedetomidine with buprenorphine as adjuvant to intrathecal ropivacaine to enhance motor and sensory blockade in patients undergoing elective caesarean section

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of Speciality Advisory Committee in Anaesthesia for review of MS synopses to be held on **Wednesday, 27th October, 2021** at **10:00 a.m.** in University of Health Sciences, Lahore.

AGENDA

S#	Name of Candidate / Specialty	Supervisor	Title
1.	Dr. Sajjad Khurshid	Prof. Naila Asad Ex-Professor of Anaesthesia Services Institute of Medical Sciences Lahore	Effectiveness of biers block with tramadol as an adjuvant to local anesthetic compare to dexmedetomidine in upper limbs surgeries
2.	Dr. Parshal Bhandari	Prof. Jodat Saleem Professor of Anaesthesia Postgraduate Medical Institute/Lahore General Hospital Lahore	Preoperative prediction of difficult laryngoscopy using ultrasound. A prospective correlational study
3.	Dr. Abdul Qayyum		To assess ultrasound guided supraclavicular brachial plexus block using lidocaine with adrenaline vs lidocaine with adrenaline and dexamethasone as an adjunct
4.	Dr. Muhammad Awais Rasheed	Dr. Saeedah Asaf Associate Professor Department of Anesthesia The Children's Hospital and Institute of Child Health	Comparison of Ultrasound Guided Transversus Abdominis Plane Block vs Local Field Infiltration with Bupivacaine in post-operative pain management in children after inguinal herniotomy
5.	Dr. Kanwal Awan	Prof. Mazhar Iqbal Professor of Anaesthesiology Punjab Institute of Cardiology, Lahore	Impact of intraoperative hypotension during cardiopulmonary bypass on post-operative acute kidney risk (AKR) and acute kidney injury after coronary artery bypass grafting
6.	Dr. Muhammad Jahangeer	Prof. Dr. Rana Altaf Ahmad Professor of Anaesthesia Ch. Pervaiz Elahi Institute of Cardiology, Multan	To compare the effectiveness of Magnesium Sulphate and Dexmedetomidine in attenuation of stress responses to Laryngoscopy and Endotracheal Intubation in Patients undergoing coronary artery bypass graft surgery
7.	Dr. Taiba Zulfiqar	Dr. Syed Imran Ul Hassan Head of Anaesthesia Department Punjab Institute of Cardiology Lahore	To compare the effects of intra venous Magnesium Sulfate and Lidocaine in hemodynamic responses to endotracheal intubation in elective CABG patients.

8.	Dr. Shaheen Amjad	Dr. Qudsia Anjum Qureshi Assistant professor of Anaesthesia Rawalpindi Institute of Cardiology, Rawalpindi	Comparison of postoperative mean duration of weaning from ventilator in patients undergoing coronary artery bypass grafting treated with dexmedetomidinevs, propofol
9.	Dr. Naeem Abbas	Dr. Muhammad Omer Ajmal Head Department of Anaesthesia and ICU, DHQ Teaching Hospital Sahiwal	Comparison of dexmedetomidine versus tramadol as an adjuvant with bupivacaine in caudal block for intra-operative hemodynamic stability and post-operative pain in children undergoing inguinal hernia surgery

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Anaesthesia** for review of MS synopses to be held on **Tuesday, 28th February 2023**, at **10:00 a.m.**, in University of Health Sciences, Lahore.

Sr. No.	Name of Candidate	Supervisor	Title
1.	Dr. Taiba Zulfiqar (Revised)	Prof. Syed Imran Ul Hassan Head Department of Anaesthesia Punjab Institute of Cardiology Lahore	Comparison of post-operative pain control and early ambulation in patients with and without thoracic epidural analgesia in off-pump CABG
2.	Dr. Soma Butt (Revised)	Prof. Jodat Saleem Head Department of Anaesthesia Postgraduate Medical Institute Lahore	Comparison between ankle block and combined sciatic saphenous nerve block in terms of post operative analgesia in patients undergoing hallux valgus surgery
3.	Dr. Fatima Khalid (Revised)		Comparison between intravenous dexmedetomidine and intravenous lignocaine to attenuate the hemodynamic response on skull pin head holder application during craniotomy
4.	Dr. Saba Arif (Revised)	Prof. Muhammad Amer Professor of Anaesthesia Nishtar Medical University Multan	To compare the effect of crystalloid preloading and crystalloid plus phenylephrine infusion preloading on blood pressure of women undergoing elective lower segment caesarean section (LSCS) after spinal anesthesia
5.	Dr. Ayesha Kiran (Revised)	Prof. Ambreen Khan Professor of Anaesthesia Quaid-e-Azam Medical College Bahawalpur	Comparative study on mean duration of post-operative analgesia after mastectomy with pectoral nerve block 1 and pectoral nerve block 2 using plain bupivacaine plus tramadol vs bupivacaine plus magnesium sulphate
6.	Dr. Iqra Khan (Revised)	Dr. Saeedah Asaf Associate Professor of Anaesthesia The Children Hospital & the Institute of Child Health, Lahore	Comparison of dexmedetomidine /propofol versus fentanyl/propofol intravenous anesthesia for foreign body removal with rigid bronchoscopy in children maintaining spontaneous ventilation
7.	Dr. Tayyaba Ibrahim (Revised)	Dr. Qudisa Anjum Qureshi Assistant Professor of Anaesthesia Rawalpindi Institute of Cardiology Rawalpindi	comparison of waveforms distortions between forearm radial artery and distal radial artery cannulation for invasive intraoperative blood pressure monitoring: A randomized controlled trial
8.	Dr. Warisha Ishaq	Prof. Naila Asad Ex-Professor of Anaesthesia Services Institute of Medical Sciences, Lahore	Comparison between ultrasound guided thoracic paravertebral and erector spinae block in video assisted thoracotomy
9.	Dr. Reesha Khalid Khan	Dr. Muhammad Omer Ajmal Assistant Professor of Anaesthesia Sahiwal Medical College Sahiwal	Comparison of phenylephrine boluses vs infusion regime in treating spinal induced hypotension in patients undergoing cesarean section
10.	Dr. Sarah Azam Ghumman	Dr. Raza Farrukh Assistant Professor of Anaesthesia Sargodha Medical College Sargodha	Comparison of prophylactic acetaminophen and aminophylline with aminophylline alone for post-dural puncture headache prevention in surgical patients with history of PDPH

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of Speciality Advisory Committee in Anaesthesia for review of MS synopses to be held on **Tuesday, 29th June, 2021** at **11:00 a.m.** in University of Health Sciences, Lahore.

AGENDA

Sr.No	Name of Candidate / Specialty	Supervisor	Title
1.	Dr. Muhammad Ibrahim Zaka M.S. (Anaesthesia)	Dr. Saeedah Asaf Associate Professor of Anaesthesia The Children's Hospital & The Institute of Child Health Lahore	Comparison of fentanyl plus ketamine versus fentanyl only for postoperative pain in children in adenotonsillectomy: Randomized Controlled Trial (RCT)
2.	Dr. Maria Ayub M.S. (Anaesthesia)		Comparison of intravenous fentanyl versus caudal block with bupivacaine for pain relief in children undergoing herniotomy: Randomized Controlled Trial (RCT)
3.	Dr. Mah Rukh Naqvi M.S. (Anaesthesia)		Comparison of albuterol premedication versus placebo on occurrence of respiratory adverse events in children undergoing tonsillectomy
4.	Dr. Muhammad Nofal Altaf M.S. (Anaesthesia)	Dr. Khaleel Ahmad Padhyar Assistant Professor of Anesthesia Nawaz Sharif Medical College / Aziz Bhatti Shaheed Hospital Gujrat	Effect of intravenous lidocaine, dexamethasone and their combination on postoperative sore throat
5.	Dr. Muhammad Adeel Ashfaq M.S. (Anaesthesia)		Comparison of total blood loss with tranexamic acid versus control in females undergoing cesarean section under spinal Anaesthesia
6.	Dr. Muhammad Idrees M.S. (Anaesthesia)	Prof. Ambreen Khan Professor of Anaesthesia Quaid-e-Azam Medical College/Bahawal Victoria Hospital Bahawalpur	Comparison of mean duration of postoperative analgesia in patients undergoing inguinal hernia surgeries under transverse abdominis plane block treated with ropivacaine 0.5% vs bupivacaine 0.25%
7.	Dr. Nusrat Shaheen M.S. (Anaesthesia)	Prof. Naila Asad Ex-Professor of Anaesthesia Services Institute of Medical Sciences Lahore	A comparative study of fascia iliaca compartment block with ropivacaine alone and ropivacaine with dexmedetomidine for positioning and duration of postoperative analgesia in femur fracture under spinal Anaesthesia
8.	Dr. Aiysha Aman M.S. (Anaesthesia)		Effects of intravenous paracetamol as analgesic: Preemptive versus preventive analgesia in abdominal hysterectomy under general Anaesthesia

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of Speciality Advisory Committee in Anaesthesia for review of MS synopses to be held on **Wednesday, 29th September, 2021** at **11:00 a.m.** in University of Health Sciences, Lahore.

AGENDA

Sr.No	Name of Candidate / Specialty	Supervisor	Title
1.	Dr. Shazia Akbar	Dr. Nadeem Ahmed Khan Associate Professor of Anaesthesia Nishtar Medical University/Nishtar Hospital, Multan	Comparison of dexmedetomidine and tramadol on neuroendocrine response during laparoscopic cholecystectomy
2.	Dr. Adnan Shakoor	Dr. Aamir Furqan Assistant Professor of Anaesthesia, Ch. Pervaiz Elahi institute of Cardiology, Multan	Comparison of the hemodynamic effects of cisatracurium and atracurium in patients with low ejection fraction undergoing coronary artery bypass grafting surgery
3.	Dr. Asma Rafique	Dr. Syed Aftab Haider Associate Professor of Anaesthesia Nishtar Medical University/Nishtar Hospital, Multan	Comparison of IV Tramadol with IV dexmedetomidine in patients undergoing laparoscopic cholecystectomy on stress response in terms of endocrine profile, hemodynamics and analgesic efficacy
4.	Dr. Hafiz Haroon Yaqoob Sidhu	Prof. Naila Asad Ex-Professor of Anaesthesia Services Institute of Medical Sciences Lahore	A comparative study between two doses (0.5ug/kg vs 1ug/kg) of dexmedetomidine as neural adjuvant to 1.5ml kg 0.2% ropivacaine for pediatric caudal analgesia and sedation in infra-umbilical surgeries.
5.	Dr. Nabeel Mannan		Comparison of intravenous vs intraperitoneal dexmedetomidine as adjuvant to 0.25% bupivacaine in postoperative analgesia in laparoscopic cholecystectomy under general anaesthesia
6.	Dr. Mohib Ali	Prof. Ambreen Khan Professor of Anesthesia Quaid-I-Azam Medical College/ Bahawal Victoria Hospital, Bahawalpur	Comparison of mean duration of analgesia in patients undergoing hand and forearm surgeries treated with Lignocaine along with Ketamine vs. lignocaine along with dexmedetomidine in intravenous regional anesthesia
7.	Dr. Syeda Sehrish Absar	Prof. Mazhar Iqbal Professor Anaesthesiology Punjab Institute of Cardiology Lahore	Efficacy of prophylactic use of continuous positive airway pressure following cardiac surgery in terms of postoperative pulmonary complications

8.	Dr. Haneea Rehman	Prof. Ashraf Zia Head Department of Anaesthesia, Allama Medical College/ Jinnah Hospital Lahore	Comparison of hypotensive effects of intrathecal dexmedetomidine versus tramadol as an adjunct to bupivacaine in patients undergoing lower segment cesarean section in subarachnoid block
9.	Dr. Nauman Zaib Khan	Dr. Syed Imran Ul Hassan Head of Anaesthesia Department Punjab Institute of Cardiology Lahore	Comparison between dexmedetomidine and placebo to attenuate presser response to endotracheal intubation in patients undergoing coronary arterial bypass grafting (CABG)
10.	Dr. Muhammad Naveed	Dr. Qudsia Anjum Qureshi Assistant professor of Anaesthesia Rawalpindi Institute of Cardiology, Rawalpindi	Comparison of postopera sore throat between glidescope and macintosh laryngoscope in patients undergoing cardiac surgeries
